

## Description

This document provides information about the LG VRF indoor unit models that are compatible with the Horizentis HTKNXLGV001 interface. Air conditioner models not listed here may not operate properly with the interface, and compatibility should be verified with your supplier before installation or use.

All details and data included in this publication have been carefully checked prior to release. However, minor inaccuracies such as typographical or formatting errors may occur. Horizentis continually works to ensure the reliability of its documentation and recommends users to refer to the latest available version. While every effort has been made to ensure the correctness of the information contained herein, Horizentis cannot accept liability for any consequences that may result from possible errors or omissions.

## Notes:

- The listed model numbers refer exclusively to **indoor units**; they do not represent combined indoor-outdoor system references.
- If you don't find your unit on the indoor compatibility list, simply refer to the compatible remote controllers list. Finding your remote there confirms compatibility with our system.
- Air conditioner models not mentioned in this list may **not be fully compatible** with the HTKNXLGV001 interface. Before use, always confirm model compatibility with your supplier or technical representative.

## 2. Compatible LG remote controllers

Systems operating with the aforementioned remote control units will maintain full compatibility with our platform.

Type	Model
Wired Remote Controller	PREMTAxxxx PREMTBxxxx PQRCVSL0 PQRCVSL0 Q/W PQRCVCLO Q/W PQRCUSA0 PQRCUSA1

**Note:** It should be noted that EVO V and Air-to-Water (A2W) units fall outside our compatibility range, despite having compatible remote controllers.
